
OBJECTIVE

To join a dynamic and innovative team of software engineers and use my expertise in designing and developing software solutions to help the company achieve its goals.

SKILLS & TECHNOLOGIES

Programming Languages: JavaScript, Kotlin, Kotlin/JS, Python, Ruby and SQL
Markup Languages: HTML and XML
Frameworks: Ruby on Rails, Spring, and Nodejs
Libraries: ReactJS, Kotlin React Wrapper and JSforce
Databases: PostgreSQL, MongoDB, and RocksDB
API Testing: Insomnia and Postman
CI/CD: Jenkins, Gradle, AWSCodePipeline, and Azure
Design Tools: Jasper Reports Studio, Adobe Photoshop, Figma, Draw.IO and Canva

EXPERIENCE

Ecosave **New York, NY**
2022 - 2024
Full Stack Software Engineer

- Developed and maintained Ecosave Watch - a client-facing web application that allows companies to manage their utility data, perform CRUD operations on statistical data related to their buildings, and view energy KPIs.
- Implemented client-facing and internal solutions using Kotlin/JS, React, HTML, and CSS.
- Utilized AWS services, including S3 storage, and collaborated with DevOps to implement a CI/CD pipeline using Jenkins and Kubernetes for streamlined deployment.
- Assisted in leading a full-stack initiative to develop a client-facing custom reporting solution encompassing 35+ models and seamless integration across multiple technologies.
- Collaborated with software engineers and product managers to build product features and presented compelling biweekly demos to stakeholders, showcasing our progress and achievements.
- Utilized Figma to design interface mockups, created decision-maker development flow diagrams with Draw.IO, and generated PDF reports with JasperReports.

IQTech Consultant, LLC **Remote**
2021 - 2022
Salesforce Administrator / Consultant (Contract)

- Work directly with clients, execute managers, and decision-makers to understand CRM business requirements and translate them into Salesforce design, automation, and integration.
- Set up customized SFDC applications to meet the organization's and client's functional needs.
- Implement organizational security baseline, object, and field level security to hide users' critical information.
- Integrated Salesforce with React using JSforce as the client and Lightning Design System in a React application.

Self-Employed **New York, NY**
2022 - Present
Freelance Web App Designer

- Collaborate with multiple clients to design client-facing websites and web apps.
- Design, build, and host with CMS or custom solutions.
- Experienced in incorporating Appointment Scheduling and Google AdWords for SEO.
- Provide technical support and maintenance and make any requested changes.
